

Apple TV - Second Generation (Black)

Basic Playback Only (No Apple ID required – No Artist/Title Information Displayed)

- 1) Ensure both your Apple TV and computer with iTunes is connected on the same network.
- 2) Ensure Apple TV is active and connected to audio output system (TV and/or stereo).
- 3) On your Apple TV, verify “AirPlay” is turned “On”.

- 4) Within iTunes, select the speaker button at the bottom of the iTunes window. If you don't see the speaker button, verify the "Look for remote speakers connected with AirPlay" checkbox is selected in iTunes preferences (choose iTunes > Preferences, and click Devices)

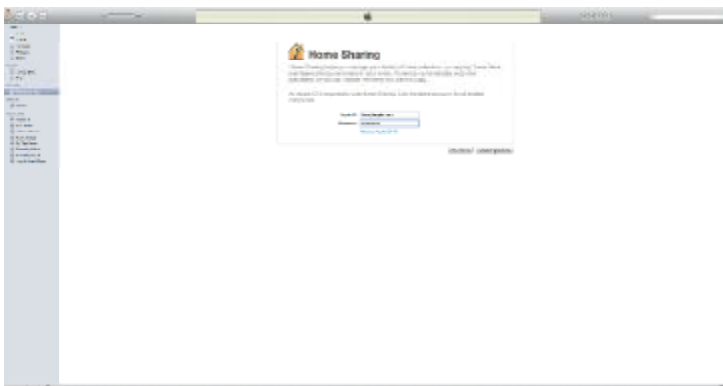

- 5) Select "Apple TV" to direct audio output to your Apple TV. To play on your computer, select "Computer". If you want to direct audio output to multiple speakers, select "Multiple Speakers..."

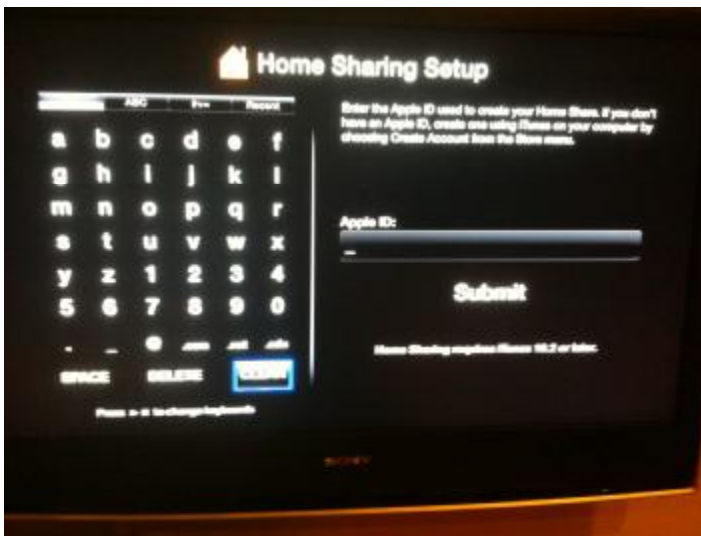

- 6) Start streaming Whisperings PureStream within iTunes, your music should now be playing on your selected speaker(s).

Enhanced Playback (Apple ID required – Artist/Title Information Displayed)

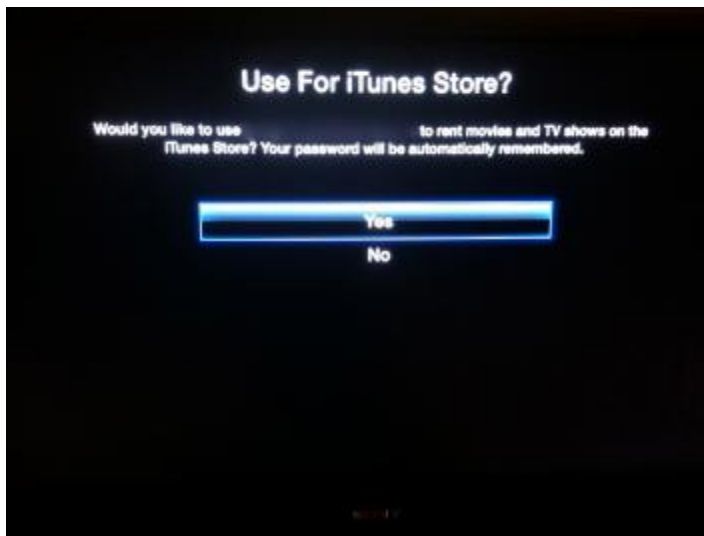

- 7) Perform steps 1-6 to enable basic playback functionality detailed above.
- 8) Turn on "Home Sharing" in your iTunes. If you don't have an Apple ID, there is a link to create one.

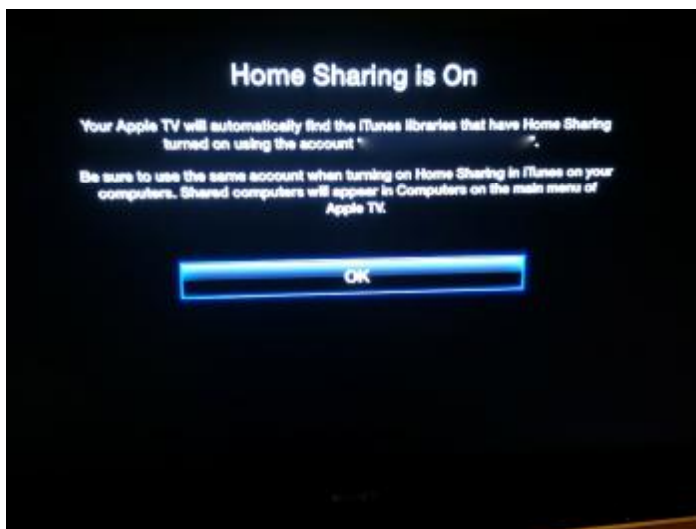

- 9) In your Apple TV "General Settings", Turn on "Home Sharing" using the same Apple ID you used in iTunes.

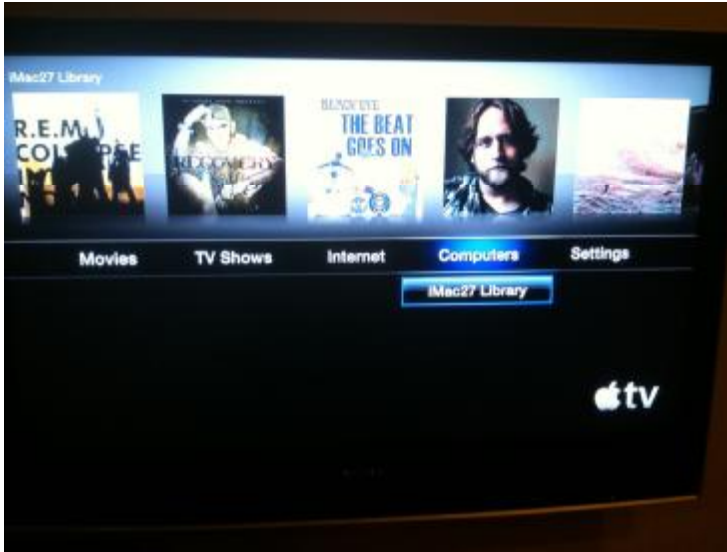

10) Select whether to allow purchases within iTunes Store (Purchase/Rentals).

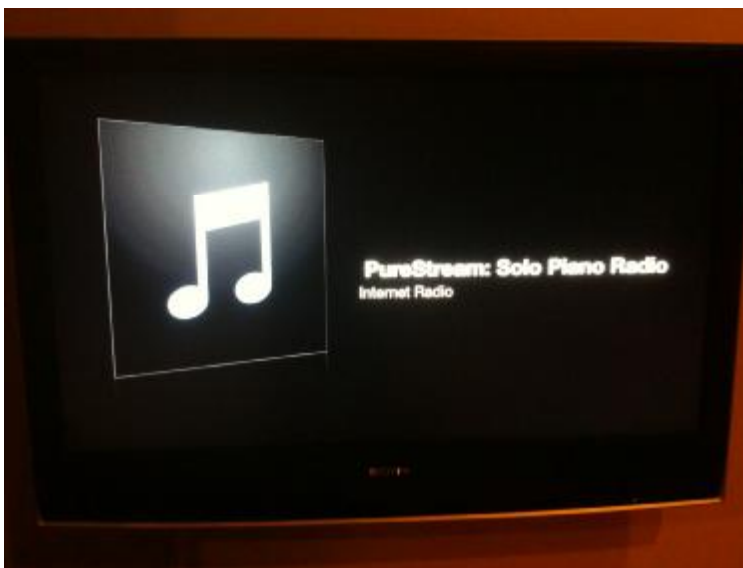

11) If successful, select "OK" to complete "Home Sharing" setup.

12) Return to the top-level menu on the Apple TV under "Computers" and then choose the available computer that will play your Whisperings PureStream.

13)The music should now be playing out the line outputs of your Apple TV.
Enjoy!

14)Energy saving suggestion. Configure your computer to put the display to sleep after a designated period of inactivity.
